Sustainable Relationships

At Cooperative Coffees, we consider the relationships between our roasters and producer partners and their organizations, as well as the relationships we construct with Fair Trade allies and an extensive consumer base, to be our greatest asset. We are dedicated to developing partnerships with producer organizations based upon open dialogue and collaborative action. Locally, each roaster develops a repertoire of community links and projects as part of their contribution to educating and engaging a Fair Trade public at home. On behalf of our staff, members and producer partners:

Thank you for supporting Fair Trade!
